

ECS6: Project

Quarto

2026-03-18

Table of contents

Note

This session is scheduled to support your ongoing project work. No new material will be introduced; instead, it provides an opportunity for in-person collaboration with your group and for asking questions to the instructor.

- Instructions for the project can be found in ECS4 and ECS5.
- Please note that you will later present your project in accordance with ES2.

Tip

The material presented in EL10 may serve as inspiration for ideas you may wish to explore within your project, but this is optional and not required for the examination.
